Important Safety Information: RevitaLens OcuTec® Multi-Purpose Disinfecting Solution is indicated for the care of soft (hydrophilic) contact lenses, including silicone hydrogel lenses. Use this product, as recommended by your eye care professional, to disinfect, clean, rinse, store, remove protein and condition your lenses. If you are allergic to any ingredient in RevitaLens OcuTec® MPDS do not use this product. Problems with contact lenses and lens care products could result in corneal infection and/or ulcers and lead to loss of vision. It is essential that you follow your eye care professional's directions and all labeling instructions for proper use of lenses and lens care products, including the lens case.
